WOOD PLANES

... THE CRAFTSMANS' FAVOURITE ...

IN PRESENTING this new catalogue of Salmen's specialities we have chosen for a cover design a schoolboy and a Technical Plane to introduce our comprehensive range of tools. It must be acknowledged that the volume of the sale does not entirely depend upon the seller ; nor with the quality of the product, however superior, but, in fact, with the number of boys who are encouraged by their parents and teachers to learn the Woodworking craft—first as an interesting hobby—then as a promising career.

ALL prices are Nett, less 2½% Cash Discount, and are subject to alteration without notice.

Cases and Packing at cost and are credited in full if returned carriage paid - half cost allowed if retained.

Carriage Paid in England on orders of £5 or over.

do. Scotland " £7 do.

do. Ireland (Eire & Northern) £10 do.

Export orders are F.O.B. London Docks.

Cases and Packing extra at cost.

Payment against Shipping documents in England.

BRAND

SALMEN'S All British WOOD PLANES

. . . It's a "MASTER" Piece.

HERE are Wood Planes built expressly for both the true craftsman and proud amateur; by skilled British workmen assisted by Modern British machinery, and produced under ideal and hygienic conditions. We have created and maintained a high standard of perfection as a result of efficient mass production methods, enabling us to offer these grand quality Planes at keenly competitive prices that are sure to help.

Precision is the keynote of our work and experienced inspection is maintained throughout every process—the slightest flaw leads to immediate rejection. Selected timber is steamed and slowly dried under accurately controlled conditions and every Plane can therefore be guaranteed to be absolutely free from distortion or splitting under any atmospheric condition of normal use.

The result is an All-British Wood Plane worthy of the best traditions of the trade and fulfilling every purpose for which it is designed.

There are none better and no GOOD WOOD PLANES cheaper!

" INVICTA "

BRAND

C. NURSE & CO.
 Celebrated
WOOD PLANES
... for the discriminating Craftsman.

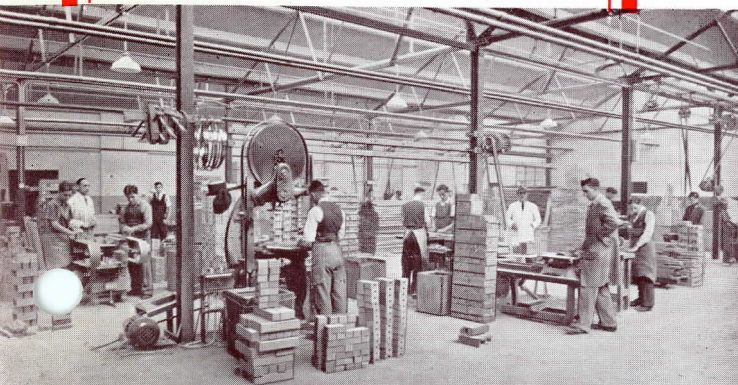

THERE still remains in certain sections of the Trade a demand for Hand-made Planes, but owing to the huge overheads of production very few firms have been able to manufacture and to carry stocks of these.

We have been successful in purchasing the Name and Goodwill of the celebrated business of Charles Nurse & Co. Ltd., who in 1841 made famous the "Invicta" Brand Hand-made Plane.

We have taken over their skilled craftsmen, and combining their intricate and unrivalled experience with our modern methods of production, we are proud to market the "Invicta" Hand-made Plane at highly competitive prices.

Each plane fitted with Cast Steel Warranted Sheffield Double Iron bears the guarantee which the trade has for so long associated with our
